AT CELOTEX OPEN HOUSE —There were 873 visitors who were shown through the Celotex Corporation Tuesday during an open house to celebrate the company's 25th Anniversary. In the first picture visitors are being shown through the 'white mill' by D. D. Donham, one of the 10 guides. The raw

material which comes from the quarry at Longworth by rail car is conveyed into the plant where the gypsum rock is reduced to a fine powder. The plant was open to visitors from 9 a. m. to 7 p. m. Some of the high school students that were taken to the plant by bus are shown in the second picture

with C. T. Carter, who is explaining the application of the core material that is encased between tough, highly absorbent paper. In the third picture, L. E. Madden brings his group by the 680 feet of continuous wallboard and points out each step of the process.

And What Have You

By BOB CRAIG

The annual Easter Seal Campaign will be held tonight and we hope that the people of Hamlin will make every effort to give generously to this drive.

As far as we know this is the first year that the West Texas Rehabilitation Center will get every dime of the money donated to the Easter Seal Campaign in the area served by the Center. In the past the Center has received a percentage of the funds raised but under the present arrangements the Center pays an affiliate fee of \$3,366 per year and receives all of the money raised.

As part of this fee the Center receives membership in both the Texas Society for Crippled Children and Adults and the National Society for Crippled Children and Adults.

Along with receiving the money raise through Easter Seals the Center receives all of the benefits of these two organizations through in-service and continued education training programs, gathering of information on a nation-wide level and many other benefits.

We do not know just how many people from this area have received benefits from the Rehab Center but we know that there have been enough to justify any amount of money that might be raised here in the drive.

Because the Center is a service organization it always seems to find itself in financial trouble—mainly because it does not know how to say no to anyone that might need the service they offer. Because of this, their patient load keeps increasing every year at a much faster rate than does their income.

We urge your generous support to this organization for two reasons. The first is because of the tremendous good that they are doing and the second is that it gives us the opportunity to prove that we as Americans still care enough to take care of our own.

In this part of the country, at least, we hear a lot of talk about keeping the federal government out of things and letting us handle our own problems—well here is a good chance to prove that we can do it. While the Center receives some Federal grants and some Medicare money it basically exists on the faith that the people still care about their fellow man.

So if you really care—please give. And when you give please remember that what you are giving has to last the Center for a whole year.

Door to Door Drive for Rehab Center Tonight

A concerted effort is being made in Hamlin to assist the West Texas Rehabilitation Center, especially during the current financial crisis, through the annual Easter Seal Drive.

Plans have been made to have the door to door canvass tonight beginning at 6 o'clock. Members of Beta Theta and Xi Gamma Pi Chapters of Beta Sigma Phi will be joined by volunteers in making the drive. The contacting of local businesses was started Wednesday and this phase will be completed today.

Mrs. Bill Feagan, coordinator for the drive, said that all workers are to meet at her home, 45 NW Ave. H, to receive instructions just prior to the drive.

The Center, located in Abilene, benefits greatly from the sale of Easter Seals. Homer Scott, Easter Seal Chairman, states that the Center pays an annual fair share Easter Seal affiliation fee of \$3,366. He points out that this is a very small percentage to pay of the half million dollar operating budget of the center for the research, continuing education and other national and state services from the National and State Easter Seal Societies.

He did say, however, that anyone that desires can make their check out directly to the West Texas Rehabilitation Center.

Under the direction of Scott,

over 30,000 Easter Seal letters were mailed to an 11-county area from the Center. The Center has high hopes for the outcome of the current campaign.

Scott said there would be special projects in many communities for the financial aid for the Center.

In Hamlin, a new endeavor is being launched — a public auction of donated items.

Accumulation of goods for the auction is now underway. The Hamlin Jaycees will be

assisting the sororities in the effort.

Guy Weaver is Jaycee chairman. The auction will be Mar. 28 at the Hamlin Jaycee Community Building.

Items to be auctioned will include new and used items. Anyone with "white elephant" or other suitable items are asked to call Mrs. Feagan, Weaver, or contact the Hamlin Herald. Small items may be taken to Feagan Oil Company where they will be stored until the date of the auction. Larger items that need to be picked up will be handled by workers.

To date the list of donations to the auction includes:

Antique dressers
Heavy steel Bar-b-q grill
Rockers
Antique side boards
Chairs
Wall plaques
New 45-piece set of Melmac dishes

A list of new items secured will be published each week in the Hamlin Herald.

Hamlin residents may also become members of the Century Club to help in the continuing support of the Center. By giving \$100 they become members or they may pledge \$10 per month. Bill Feagan has the form to be filled out for this at Feagan Oil Co.

Arrangements to become members may also be made during the door to door canvass. The workers will be able to take the information.

CHANTERS DUE HERE — The 50-voice McMurry College Chanters will present a concert Sunday at 7 p.m. in the sanctuary of the First United Methodist Church. Also featured with the Chanters will be the Apollo 16, a doz-

en young vocalists who team with a pianist and bass viol player. The choir is under the direction of Bernhard Tiede, who is in his second year at McMurry. The public has a special invitation to come and hear the Chanters.

FROM THE FILES . . .

FORTY-FIVE YEARS AGO
(March 13, 1925)

A deal was closed Wednesday whereby Henry Reeves purchased the business interest in the Kings Garage. Mr. Reeves is no stranger in Hamlin, having been in the grocery business here, and having made his home here for a number of years. He will be pleased to meet his friends at his new place of business.

Mrs. Carlton Parker and little daughter, and Mrs. John Hayes, of Roby were shopping here Monday. They were guests at the home of Mrs. Parker's parents, Dr. and Mrs. L. S. Magee.

Mr. and Mrs. B. Bradley and children, of Tucson, Arizona, were here from Sunday until Tuesday visiting Mr. and Mrs. B. E. Clements and other friends.

TWENTY YEARS AGO
(March 10, 1950)

Hamlin's first week of parking meter operation returned \$198.41 in revenue, according to a check-up made first of the week by city officers.

This meant an average weekly run of less than \$1 for the 200 meters which were installed two weeks ago and went into actual use Monday a week ago.

Continuing their winning ways, Hamlin Future Farmers of America walked away with several awards last week-end at the Abilene Fat Stock Show.

John Gregory showed the reserve champion heavyweight capon as well as taking first in the heavyweight capon class.

James Brigham's heavyweight barrow won first honors in that division. Bryon Hutton took the second spot and James Bowman won ninth in the same class.

Brigham won fourth and tenth places in lightweight barrows. Grigam won third and Dutton took fifth in the same class.

TEN YEARS AGO
(March 10, 1960)

Two Hamlin Future Farmers of America boys, David and Tommy Bonds, sons of Mr. and Mrs. L. C. Bonds, took some of their beef steers this week to the San Angelo Livestock Show for exhibition and sale. The show continues over the week-end.

More than 100 new members for the Hamlin Board of Community Development have been unofficially reported in the current membership drive being conducted under the direction of Fred B. Moore Jr., chairman of the membership committee.

Two soliciting teams, the Whites and Greens, are vying for high honors in the campaign to have more people invest in the future of Hamlin.

Team Captains Mac Brundage and Wesley Nail of the Greens, and Bill Harbert and Louie Cunningham

of the Whites, are working with their various solicitors to complete the drive within a few days, Moore reports.

Congressman Omar Burleson of Anson made a flying trip last week from Washington to the district on a brief speaking mission at Rotan and Snyder.

The Congressman came by The Herald office for a short visit. He said he would have his formal announcement for reelection to the Congress seat within a few days.

New officers and two new directors were named by Hamlin Rotary Club last Wednesday noon at the regular weekly luncheon meeting of the civic group in the oil mill guest house.

Dr. James E. Harrison, dentist, was elected president to succeed Superintendent of Schools C. F. Cook, who automatically becomes vice president. Kenneth Scott was named secretary. Garland Preston and Nelson Shave were the new directors elected.

And What Have You

By BOB CRAIG

—Continued from page 1

We were pleased to note that John Scarborough has been recognized for his efforts over the years in behalf of the Texas Farmers Union by being one of the two voting delegates to the organization's national convention this weekend in Denver.

John, who is serving as President of the Jones County Farmers Union, has devoted many hours over the past few years to this farm organization and is more than deserving of this honor.

Not only is this an honor for John but it is also a benefit to this area to have a voting delegate at a national meeting of farmers. This is especially so since the whole farm program seems to be at a crossroads.

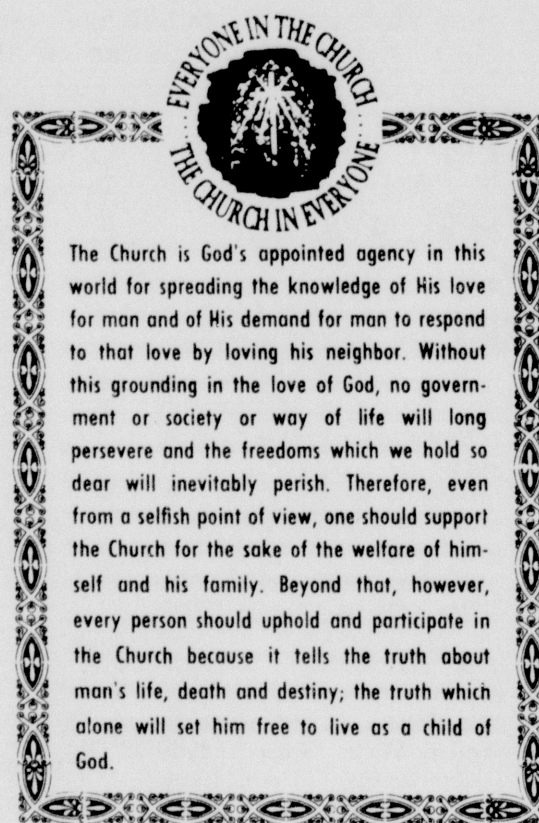

We had an inquiry the other day as to when was the last time that Friday 13th fell in both February and March. In thinking about it we figured out that unless it was a leap year we would have Friday 13th in both months. In fact in checking we found that this happened in 1903, 1914, 1925, 1931, 1942, 1953, 1959, and 1970. And it will happen again in 1981, 1987, and 1998. Going back to 1753 we find that it has never fallen in February on a leap year. Consequently, we have not had a Friday 13th in February without having one in March. And at the same time that we have a Friday 13th in both February and March we will also have it in November.

Neinda Philosopher Says He's Surprised President of France Is So Ignorant of U.S.

Editor's note: The Neinda Philosopher on his Johnson grass farm on Route One takes a sidelong glance at the heckling business in this country today.

Dear editor: According to the news in two different newspapers I read out here, the President of France, Mr. Pompidou, got his feelings hurt while he was in this country because some people demonstrated against him.

I don't understand this. You'd figure the President of France reads newspapers and watches television and therefore knows how we treat public officials in this country. Why, everybody knows for example that former Vice President Humphrey hasn't had to write a new speech in months because the hecklers won't let him make the one he's got on hand. A handful shout him down every time on every campus he's invited to.

What the shouters have discovered is that a few people can break up nearly any speech if they want to. Had they been of a mind to, they could have broken up the Sermon on the Mount.

As a result, about the only way a President or Vice President or a Cabinet member or an ex-member of this group can make a speech uninterrupted is to fly to a studio in a helicopter, come down through a hole in the roof, talk quietly into the television camera, and then escape by the same route.

I understand the shouters consider this unfair play, since obviously they don't have enough people to put a heckler in front of every family's television set, and also it wouldn't be very safe, as a lot of people want to hear what a man's got to say whether they agree with him or not, and such invasion of privacy might lead to a type of violence the shouters couldn't bear up under. You interfere with a man's television program in his own home and you're in trouble. Ask any kid.

Recognizing this, you reckon the shouters seeing as how they're stymied from breaking up a speech if it's delivered on television, will now demand on the grounds of constitutional free speech the right to place hecklers in a studio every time a speech is

being televised?

You reckon they'll take it to court? You reckon the courts will entertain such a suit? If it gets all the way to the Supreme Court, you reckon . . . aw, the court wouldn't do that would it?

Yours faithfully,
J. A.

John Scarborough Attends FU National Convention As Delegate

The officers of Texas Farmers Union and a delegation of voting delegates and members are attending the National Farmers Union convention in Denver this week.

The three state officers who are in Denver for the National Convention of Farmers Union are state President Jay Naman of Waco, Vice President Joe Rankin of Ralls, and Secretary-Treasurer Elizabeth Doshier of Waco. The Texas delegates are Jerry Warren of Gorman and John Scarborough of Hamlin.

JOHN SCARBOROUGH
... convention delegate

The National Farmers Union convention program features Secretary of Agriculture Clifford Hardin, who addresses the convention Friday night. Both newly appointed Democratic National Committee Chairman Larry O'Brien and Chairman of the Republican National Committee, Rogers C. B. Morton, will be featured on the convention program.

The three-day meeting which will be attended by over two thousand delegates and members, will be climaxed with the traditional convention banquet on Saturday night and the principal speaker will be Congressman Graham Purcell of Wichita Falls.

Other nationally known farm and political leaders who are on the convention program are Ed Janenke, Governor of the Farm Credit Administration, Charles Munro, President of the Canadian Federation of Agriculture, Congressman Henry Ruesch from Wisconsin, E. J. Malusky, Manager of the Farmers Union Grain Terminal Association, P. H. Steichen, Manager of the Farmers Union Central Exchange, and the National Farmers Union officers, Tony T. Dechant,

President, and Ed Christian-son Vice President. The Texas delegation is staying at the Denver Hilton which is the convention headquarters.

School Board Renews Contracts

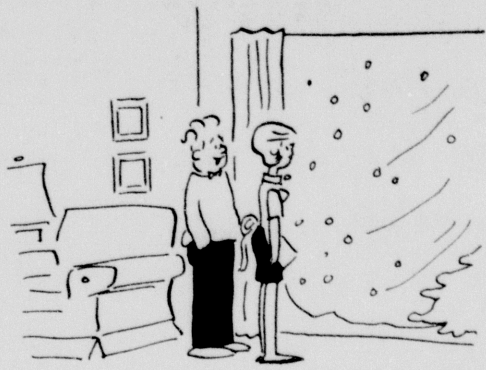

Contracts were renewed by the Hamlin School Board for Tim Jones, band director, and T. C. Blankinship, vocational agriculture teacher, and Haskell Carter, tax assessor-collector, at the Monday evening meeting.

Teachers will be hired at the April meeting.

The trustees also instructed B. V. Newberry, high school principal to contact other schools to see what methods they were employing with regard to unexcused absences. The board felt this investigation was necessary because absenteeism is a real problem here.

AUSTIN, — Local school districts will contribute \$271.2 million toward financing Texas' basic foundation education program in 1970-71.

State Board of Education settled on this figure in approving local fund assignments of approximately 20 percent of the total program cost. State pays the rest.

Sixty-first Legislature set local fund assignment at \$204.9 million, plus 20 percent of the cost of new programs.

Board approved the economic index for each of 254 counties, determining the contribution to be made by districts as a fair share of costs. Each district is further assigned an amount based on the percentage of tax valuations. Tentative indexes have been mailed to district and county superintendents.

Economic index is re-computed each year, based on three-year averages of valuations, scholastic population and income.

In other action, the board: Reversed the Taylor County Board order to transfer 73.9 acres of land and 10 pupils from Wylie to the Abilene School districts, on grounds that local trustees made the original decision in a secret meeting... which is not legal under Texas laws.

Approved for readoption \$3,076,149 worth of textbooks in 36 subjects covering all grades.

Awarded a \$150,000 contract to Texas A&M University to train driver education teachers and teaching assistants in two summer short courses.

Heard a report that there is no significant disadvantages for driver education students from use of non-degree teaching assistants in driving courses.

Voted to continue the School for the Blind project to develop a perceptual training program for visually-handicapped children into 1971 under a new \$69,041 contract with the U. S. Office of Education.

COURTS SPEAK — In a precedent-setting case, State Supreme Court held that mineral rights are dominant over surface rights in lands condemned by government agencies.

Owners have a right to reasonable use of the surface to get minerals under such lands, says the Court, and where public use interferes with recovery of minerals, a second condemnation proceeding is necessary. Case involved 7.6 acres of land condemned by Chambers-Liberty Counties Navigation district.

High court also agreed to hear arguments April 1 as to whether a house owned by the San Antonio Methodist Church should be exempt from property taxation. House is used as a residence for the church's district supervisor. Fourth Court of Civil Appeals earlier reversed a local district court which contended the house is exempt.

Abilene appeal from judgment of \$29,545 favoring a landowner whose 35 acres were condemned for a city airport was rejected by the Supreme Court.

GOALS IDENTIFIED — Phase II of Gov. Preston Smith's "Goals for Texas" program was kicked off when representatives of each of the 21 planning regions of the state came to Austin for a conference, and presented recommendations for improvements in the Texas way of life.

These recommendations will form the basis of his 1971 recommendations on state goals says the governor. Smith sees the process as "bringing the government close to the people" ... a procedure he favors.

"If we win, we will have made state government more responsive and more relevant

to all Texans," he said. "We will have taken the leadership among our sister states in providing solutions to our own problems and, more important, we will have involved people in the decision-making process."

INSPECTION DEADLINE NEARS — There still are nearly 3.2 million Texas vehicles yet to be inspected before the mandatory April 15 deadline. Department of Public Safety warns.

About 2.4 million cars and trucks have complied with inspection requirements since the new period began on September 1. This is the last deadline under the old law. State now is on a 12-month inspection period, with stickers expiring on the last day of the month, 12 months from date of the sticker.

New stickers are placed on the left side of the windshield. They show the month of inspection and expiration. So, if you still have a sticker on the right side of your windshield, your car must be inspected by April 15.

OIL SPILL REPORTED — A "major oil spill" resulting from a pipeline leak into water supplies of Mineral Wells and Santo Water Supply Corporation has been reported to Governor Smith.

Site of the 500-barrel spillage is on the south fork of Palo Pinto Creek near the Gordon community. It occurred when a bulldozer operated by a farmer apparently broke an eight-inch, high pressure pipeline. State Health Department was called in to protect the health of area residents, and the Water Quality Board said the attorney general may be asked to file suit against negligent parties.

EIGHT SPURN FOOD PROGRAMS — Eight counties still refuse to participate in free food distribution programs for the poor, reports the Texas Welfare Department.

Counties are Gillespie, Kerr, Uvalde, Bowie, Edwards, Randall, Roberts and Colorado, Department said. Another 29 are undecided or have not indicated a preference to welfare officials.

In any county which refuses to cooperate in a food assistance program, Welfare

Department will, under court order, operate a commodity distribution program at federal expense, Commissioner Burton Hackney said.

SCREWWORMS — There were no new cases of screwworm developed in Texas in January, but the total for 1969 came to 160 laboratory-confirmed cases, according to a year-end report of the State Animal Health Commission.

Seven million sterile flies were released in Texas in January in the screwworm eradication program even though there were no cases that month.

SHORT SNORTS

Cigarette tax increase upped the February revenue \$3.4 million (from \$9.4 million in February, 1969, to \$12.8 million this year).

Atty. Gen. Crawford Martin held in a new opinion that the State Board of Medical Examiners has no authority to delegate to any other than a board member duty of holding and proctoring examinations for a medical license.

U. S. Office of Child Development grants have been approved for Operation Head Start programs for Lamesa-Dawson County Community council (\$21,526), Starr County council (\$252,516) and Alabama-Coushatta reservation tribal council (\$17,050).

Robert Estrada of Brownsville is new director of Mexican-American Affairs for the Republican Party of Texas.

Business activity across Texas declined seven per cent in January, reports the Bureau of Business Research of the University of Texas at Austin.

U. S. Department of Labor invited Texas to develop a proposal for state sponsorship of a public service careers program designed to increase employment opportunities in state government for disadvantaged persons, with federal funding hoped for over a 21 month period.

Although the deadline for ordering 1970 automobile tags by mail has passed, the Highway Department reminds that the new computerized form still will save time in issuing plates at court houses and substations.

Shell Pipe Line Employees Attend Safety Meeting

The local Shell Pipe Line Corporation's employees and their wives attended an Awards Banquet and Safety Meeting at the Cliff House Monday evening in Stamford.

The company annually gives special recognition for 25 drivers for accident free years of safe driving in multiples of five years.

Mr. M. W. Robertson and Mr. O. L. Rich received this special recognition for 25 years and 10 years respectively.

The group received special recognition for their contribution to the District for working 92,343 hours 244 days since the last disabling injury on the job.

Out of town company guests were Bob Frazier, Big Spring; Gene Sherwin, Mr. and Mrs. Tom Green, J. E. Fairweather and C. R. Jones all of Midland. Other guests were Mr. and Mrs. Bob Craig of Hamlin.

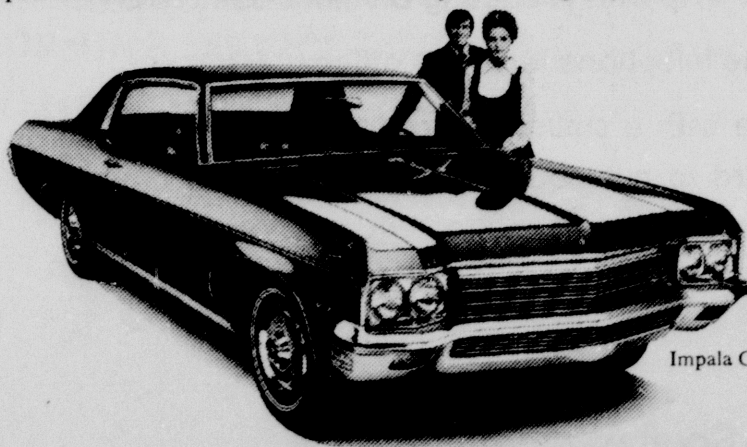

239 YEARS SAFE DRIVING—Hamlin employees of Shell Pipe Line have compiled a total of 239 years of safe driving and were honored Monday night at an Awards and Safety Meeting for their accident free driving in 1969. Receiving this recognition and the number of safe driving years, were, in the top picture, left to right, V. E. Holt, 22, J. E. Butler, 1, N. B. Greer, 19, R. F. Coston, 18, H. L. Miller, 18, and P. 10 resounding reasons why you should buy a new Chevrolet instead of a new something else:

- 1 Higher resale value.** Year after year. No other car in Chevrolet's field gives you as much back on your initial investment.
- 2 Deep down value.** Exclusives like flush-and-dry rocker panels and an extra set of fenders keep Chevrolet looking good longer.
- 3 Smooth, smooth ride.** Because of Chevrolet's computer selected springs, Full Coil suspension and advanced body mounting system.
- 4 Impressive styling.** The impression is that it's an expensive car, if you want to make an impression.
- 5 Massive interiors.** Result? Room to stretch out or to sit tall. Chevrolet has more front leg room than any other car in its field.
- 6 Side-guard beams.** Chevrolet puts more between you and the outside. Steel beams built into every door.
- 7 A finish that lasts.** It's unfortunate other cars in Chevy's field don't have a Magic-Mirror finish because it sure keeps its shine.
- 8 Exceptional engines.** Chevrolet's standard 350-cubic-inch V8 runs on regular fuel. Plus there are five more engines available.
- 9 Tremendous selection.** Of colors. Of accessories. Of engines. Of transmissions. Of fabrics. And of models. There are nine big Chevrolets alone.
- 10 America's favorite.** Something a new "something else" can't claim. If actions speak louder than words, doesn't this say something to you?

Putting you first, keeps us first. CHEVROLET

The Hamlin Piper Band won sweepstakes at the Sweetwater Band Festival Saturday. The three songs played, which will also be played at UIL contest, were March of the Parachutists, Festival Prelude, and Masque. Hamlin was one among AA bands entered in the festival and was the only AA band to receive this superior rating.

Open house was held at HHS last Tuesday night. Many parents came to see the work of their children and admire the nice building. Refreshments were served in the cafeteria after the guests com-

pleted their tours.

The HHS golf team traveled to Snyder last Friday. However, with the rain being so bad, the course was messed up and our boys came in last.

Plans for both the Senior and Junior plays are progressing very well. The Seniors have been practicing since the last of February. They will present their play March 24.

The Juniors will start practicing their play soon. The date for the play will also be set later.

All members of the student body attended the 25th An-

niversary of the Celotex Corporation Tuesday. Buses took the students out to the plant to take tours. We would like to wish Celotex another happy twenty-five years. Local drive for funds to aid West Texas Rehabilitation Center will be held tonight (Thursday).

Four-Day School For Livestockmen Planned In Anson

A four day school on artificial insemination of beef cattle will be held in Anson on April 8-11, according to an announcement this week by County Agent Kirby Clayton. The school, says Clayton, will be taught by James Travis, a technician with the American Breeders Service from Weatherford. Mr. Travis will be assisted by Bob Middlebrook of Haskell, who is a graduate technician of the American Breeders Service.

The school, says Clayton, is being held as a result of a request made by several cattlemen who are interested in crossbreeding to increase weaning weights of calves and better performance of the mother cow.

Maximum hybrid vigor comes from crossing straight bred cow with a straight bred bull of another breed. This hybrid vigor in cows shows up in increased fertility, larger survival rate of calves, greater milk production, faster growth rate and longevity — all of
